Testimony

“I have worked with Nicolas and his team for a few years and am pleased to endorse Logos as a professional and high-quality supplier of large building signage. Over the years Logos have carried out projects for Citibank and FWD Insurance in Jakarta. During my dealings with Logos they have always been professional in their approach to facets of the projects from initial contact through tender to manufacture and installation. They always backed up their quality and always rectified any defects with a minimum of fuss. Communication has always been of a high standard and they have always been willing to listen and learn. I have no hesitation in recommending Nicholas and his team for any of your signage needs and look forward to dealing with them in the future.”

Yours Sincerely,

Rod Yates
